From the cover, we already have a prompting question.

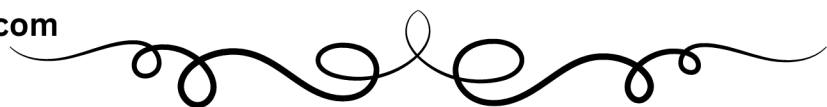

What if you could live forever?

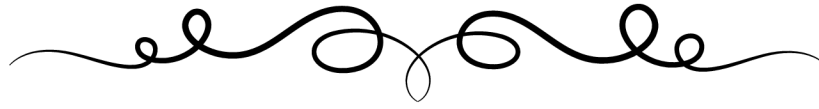

From just the cover, what could you predict the book maybe about?

Is there a word in the title that may support your theory? Explain your reasoning.

Prologue

What 3 events happened that you think the book will dive into and reveal?

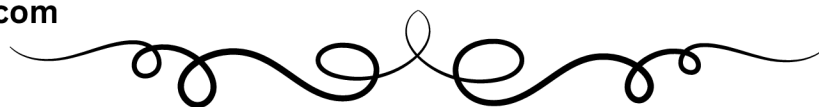

One

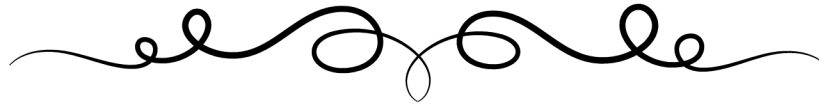

What 3 things, only, are important according to page 6? Describe them. What are they?

What decision, made by the cows, seems to have great effect on where this story will lead us?

Two

What do you think the villagers wouldn't remember?

Two Continued

How is it possible that the 4 of the characters' reflections hadn't changed in 87 years?

Three

What reasons does Winnie give on why she should and or needs to run away?

Four

Who do you think the man in the yellow coat is? Why?
